

DSTF FINGER LIFT

A finger tearable holding system

The Finger Lift liner has a dry edge on both sides, making liner removal fast and easy. Duraco's Finger Lift Tissue Tape is a handtearable, tissue supported double-sided tape that can be used for multiple applications.

FEATURES:

- Rubber-based permanent adhesive
- Hand tearable tissue carrier
- Easy to start and remove finger-lift edge liner
- High initial adhesion with good shear strength
- Moderate temperature resistance
- Good bond to low surface energy substrates
- Works well on curved and uneven surfaces

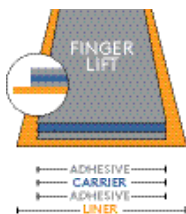

APPLICATIONS:

- Posters and signs
- Lightweight POP
- Packaging and box closures
- Envelopes
- Inventory tags
- Commercial work

SPECIFICATIONS:

- Adhesive: Hot melt rubber-based permanent
- Application Temperature: 35°F to 122°F
- Service Temperature: 0°F to 160°F
- Classifications: FDA Regulation 175.105 for indirect food contact

SHORT ROLLS

3" diameter core | 3.3 mil Adhesive + Carrier | 2.2 mil Liner

Part Number	Liner Width in	Adhesive Width in	Length ft	Roll Diameter* in
492000	1/2	1/4	108	3-1/2
491537	1/2	1/4	216	5
492003	3/4	1/2	216	5
492006	1	3/4	216	5

STANDARD ROLLS

3" diameter core | 3.3 mil Adhesive + Carrier | 2.2 mil Liner

Part Number	Liner Width in	Adhesive Width in	Length ft	Roll Diameter* in
491535	1/2	1/4	1,300	11-1/4
491536	1/2	1/4	2,000	13-3/4
491517	3/4	1/2	1,300	11-1/4
491518	3/4	1/2	2,000	13-3/4
492007	1	3/4	1,300	11-1/4
492008	1	3/4	2,000	13-3/4
492012	1-1/2	1-3/16	1,300	11-1/4
491532	1-1/2	1-3/16	2,000	13-3/4
491534	2	1-5/8	2,000	13-3/4

LONG ROLLS

3" diameter core | 3.3 mil Adhesive + Carrier | 2.2 mil Liner

Part Number	Liner Width in	Adhesive Width in	Length ft	Roll Diameter* in
492001	1/2	1/4	3,000	16-3/4
492004	3/4	1/2	3,000	16-3/4
492009	1	3/4	3,000	16-3/4

*Roll diameter listed is nominal with a tolerance of +/- 6%.
